Designed for the new c-Class BladeSystem enclosure, the HP GbE2c Ethernet Blade Switch for c-Class BladeSystem (GbE2c) provides a full set of industry standard Gigabit Ethernet Layer 2 features, sixteen internal downlinks, five uplinks and two internal cross-connects in a single low cost blade solution. The GbE2c dramatically reduces cabling, power and cooling requirements compared to stand-alone switches, allowing you to realize the full cost saving capabilities of the HP c-Class BladeSystem.

What's New

- Support for HP ProLiant BL465 G6 server blade

At A Glance

Performance:

- Wire speed switching on all five 10/100/1000T uplink ports
- Wire speed switching on all sixteen 1Gb server ports
- 16:5 downlink to uplink bandwidth ratio
- Store and Forward Switching

Management:

- Offers simplified management
- Can be managed through CLI, HTTP, SNMP

Security:

- Secured access through SSH and HTTPS (SSL)
- Offers RADIUS Authentication
- Offers TACACS+ Authentication

Service and Support
This product is covered by a global limited warranty and supported by HP Services and a worldwide network of HP Authorized Channel Partners. Hardware diagnostic support and repair is available for three years from date of purchase. Support for software and initial setup is available for 90 days from date of purchase. Additional support may be covered under the warranty or available for an additional fee. Enhancements to warranty services are available through HP Care Pack services or customized service agreements.

The HP GbE2c Ethernet Blade Switch Limited Warranty includes 1 year Parts, 1 year Labor, 1-year on-site support.

Care Pack services provide a range of life cycle support options that let you choose the service levels that meet your business requirements, from basic to mission-critical.

A full range of HP Care Pack hardware and software services are available including:

- Installation and start up
- Education courses
- Extended onsite hardware coverage hours from same business day 13 hours, 5 day to 24 hours, 7 days call window with options including 4-hour response or 6-hour Call To Repair
- Comprehensive range of software technical support for Microsoft, Linux, ProLiant Essentials and
VMware-based IT solutions helping to deliver high level of application availability. Response times range from 30 mins for critical problems to 2 hours

- System Management, Performance Services and Mission Critical Support Solution

HP Care Pack services for the c7000 and c3000 Enclosure cover the enclosure, power supplies and fans. HP qualified rack options are covered by these services when installed within the same rack. HP supported c-Class enclosure devices including pass thru, Ethernet interconnect and virtual connect modules are also covered by the c7000 and c3000 enclosure Care Pack services.

NOTE: For more information on HP Care Pack services, contact any of our worldwide sales offices or resellers or visit our worldwide Web site on the internet at: http://www.hp.com/hps/carepack

Product Specifications

Security Features
SSHv2, TACACS and TACACS+
Software

VLANs can be configured to provide segregation for data - improving bandwidth, performance and limiting traffic to its designated domains.
GbE2c also provides secured access through SSH v2, protecting against IP spoofing as well as DNS spoofing. GbE2c enables users to meet their security requirements by providing support of HTTPS, RADIUS and TACACS.

Spanning Tree Features

802.1d, 802.1w, 802.1 s

GbE2c's industry standard Spanning Tree provides redundancy and the loop avoidance capabilities to keep the network not only up, but operating at peak performance.

Based on the industry standard 802.1w, GbE2c Rapid Spanning Tree Protocol (RSTP) offers fast convergence - reducing packet loss and downtime in high-availability and high resilient networks. GbE2c's industry-standard based RSTP offers instant failover to secondary links in an unlikely event of primary link failure.

GbE2c also offers Multiple Spanning Tree Protocol (MSTP; 802.1s) for seamless integration into networks running 802.1s. Multiple Spanning Tree enables networks to utilize individual uplinks for separate VLANs thus improving the overall performance of the network. Up to 32 STG are supported.

Trunking Features

802.3 ad

GbE2c reduces downtime in an unlikely event of link failure by supporting link aggregation protocol. GbE2c link aggregation is compatible with Cisco Etherchannel® thus providing seamless integration into Cisco® based networks.

VLAN Features

In GbE2c up to 256 VLANs (802.1Q) can be configured to provide segregation for data - improving bandwidth, performance and limiting traffic to its designated domains.

Management Features

GbE2c provides multiple easy-to-use configuration and management options. For compatibility, the GbE2c offers the same CLI as the GbE2. The GbE2c will also be software upgradeable to use an industry standard network administrator CLI (comparable to Cisco®) in a future release.
GbE2c's Web-based management interface enables administrators to easily configure the most advanced features such as Rapid Spanning Tree, Uplink Failure Detection and SNMP management by pointing and clicking.
GbE2c also enables sophisticated administrators to configure and manage the switch through SNMP. GbE2c provides full support for SNMP v1v2 and v3.

Standards Support

- Compliance IEEE 802.3, 802.3u, 802.3ab, 802.1d, 802.1p, 802.3ac, 802.3ad (Static), and 802.1Q
- SNMP v1 (RFC 1157) and RMON v1 (RFC 1757) groups 1, 2, 3, and 9
- MIB-II (RFC 1213), Bridge MIB (RFC 1493), Interface Group MIB (RFC 2233), Ethernet MIB (RFC 1643), 802.1Q Extended Bridge MIB (RFC 2674), Entity MIB (RFC 2037), SNMP Trap Convention (RFC 1215), Bridge Trap (RFC 1493), Remote Monitoring Traps (RFC 1757), and HP Enterprise Switch MIBs and Environmental Traps
- IGMP v1 (RFC 1112), IGMP v2 (RFC 2236), SNT (RFC 1361), Telnet (RFC 854), TFTP client (RFC 783), BootP client, (RFC 2132), and XModem

Products and Approach

End-of-life Management

and Recycling

Hewlett-Packard offers end-of-life HP product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to http://www.hp.com/go/green. To recycle your product, please go to: http://www.hp.com/go/green or contact your nearest HP sales office.

Products returned to HP will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: http://www.hp.com/go/green. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.
